Dear Sir

SMIT Amandla Marine (Pty) Ltd is active in the provision of specialist marine services and have a group track record in South Africa that spans some three decades

Vessel Management

We offer a comprehensive ship management and manning service, providing ship owners with professional advice and expertise on operational, technical and commercial levels. Our expertise also includes changes to ship registry and classification, management of specialised vessels, as well as the co-ordination of crew training.

Testimonial

My involvement with Eraco started in 2005 when the department of Marine and Coastal Management (MCM) requested the design and construction of a high speed aluminium interception vessel. I am happy to report that the vessel, with a chase speed of 65 knots, continues to protect the South African coastline against illegal fishing activities.

I have found the Eraco team to be both professional and dynamic in their approach to delivering vessels. My dealings with the team have lead me to conclude that Eraco conducts business in an ethical manner. SMIT and Eraco continue to work together and are currently involved in a new project launched by the Department of Environmental Affairs and Tourism.

If there is anything else you would like to know please do not hesitate to contact me.

Yours Sincerely

Jon Klopper

Nautical Superintendent
